

Safety Hazards

MAJOR

1. Students have to cross a busy* two lane or multi lane street without adequate crossing facilities (e.g. lights, crossing guard)
2. Students have to cross railway tracks
3. Students have to utilize a major overpass

MODERATE

1. Students have to cross a busy* two lane or multilane street, **or intersection** with lights or with a pedestrian crosswalk and crossing guard; or have to cross a medium volume traffic street without crossing guards.

(Note: Crossing an intersection, no matter how many times you need to cross at that same intersection is still considered a single moderate hazard.)

2. Students have to walk in areas with major hills, ravines, or rivers.
3. Students have to utilize an underpass or a minor overpass

MINOR

1. Students have to walk in residential areas without sidewalks
2. Students have to walk along busy street with sidewalks

***BUSY IS DEFINED AS HAVING A TRAFFIC VOLUME EQUAL TO OR GREATER THEN 600 VEHICLES PER HOUR.**

To comply with Transportation Regulation 1(ii), the students would need to encounter:

One major hazard, or

Two moderate hazards, or

One moderate and two minor hazards.
